EDUCATION

SOFTWARE ENGINEERING
1337 Coding School
2021 - now

WORKING EXPERIENCE

FULL STACK DEVELOPER
High Tech Vision | Nov 2023 - May 2024

- Developed user authentication features
- Implemented playback functionality
- Integrated support ticket system
- Created a backoffice website tailored for administrative tasks and management.

PROJECTS

BRITISH ARAB COMMUNITY

Crafted a dynamic streaming platform as a full-stack developer, specializing in user authentication, playback functionality, and support ticket integration. Collaborated closely with the team to optimize user experiences and platform performance.

FT_TRANSCENDENCE

A one-page full-stack website where you can play Pong with players among other things such as JWT/2FA authentication, a chat, private messages, friends list, profiles, a match-making system, a spectating system.
